

Quark Matter 2008

20th International Conference on Ultra-Relativistic Nucleus Nucleus Collisions
February 4-10, 2008 Jaipur, India

Topics

- Global and Collective Dynamics
- Jets in p+p, p(d) + A and A+A Collisions
- Strangeness Production
- Heavy Flavour and Quarkonium Production
- Electromagnetic Probes
- Correlations and Fluctuations
- QCD at High Temperature & Density
- Critical Point in QCD Phase Diagram
- Low-x Parton Dynamics, Initial Conditions and Thermalization
- Role of QCD Phase Transition in Astrophysics
- New Theoretical Developments
- Future Experimental Facilities and Instrumentations
